FOR RUDI REPENNING DESIGN

*Custom interior woodwork & furniture design*

---

We hired Rudi Repenning Design (RRD) for a number of projects and give the highest recommendation for work performed on ALL. In every respect our expectations and needs were met, and EXCEEDED, especially where complicated renovations were required..

We have posted an image of a NEW project done at JHS - Jackson Hospital, Miami, a multimedia Donor Wall, for which we needed cabinetry built and installed to our designs and under special deadline circumstances and with extenuating additional issues. The RRD team met our, and the hospitals', requirements in building, delivering and installing a 24' long cabinet of multiple configurations with admirable proficiency.

So, if you are looking for a carpenter, look no further - RRD is a reliable, expert, careful, efficient, skillful and licensed firm.

We will definitely be using Rudi Repenning Design again.  
Made us look good and our job easier!

My master bath cabinetry and lighting was renovated by Rudi Repenning and he did a spectacular job. This was several years ago and today it looks just as the day it was finished. Great quality and very professional attitude.

Superb craftsmanship and knowledge of materials, beautiful detailing, and overall, an encyclopedic background in preservation carpentry - Rudi brings these assets and more to every job he undertakes. We feel fortunate indeed to have worked with him to restore our historic home in Key West

Rudi has been working on my historic home(s) for a couple of years now.

He came highly recommended from several other people around town. He is magnificent!! A truly skilled carpenter, to say the least...he is creative, punctual, and considerate. Rudi is one of the few true carpenters I have found and he always does things the "right and proper" way. I can't say enough about him or his craftsmanship. I also look forward to the day I purchase one of his handmade pieces of art/furniture!!! Thank you Rudi!!!

Rudi Repenning was contracted to build an add-on porch and roof to my cottage. Rudi's work and overall performance was professional and exemplary. He and his crew were punctual and always left the job site clean. The result was a well designed, solid and well built addition. I would recommend Rudi for all types of carpentry and construction projects.

Master craftsman. Designer and collaborator.

Not only is Rudi a master craftsman with an eye to detail, you can share ideas and get real creative input from him. With every project it becomes a wonderful collaboration.

Rudi is simply the best. His ability to design and plan without compromising form or function is amazing. He built and consulted on design for all the fixtures in Tucker's Provisions in Key West. There isn't a day that goes by without multiple customers raving of his work. Rudi's work has played legitimate role in the success of our store.

We have used Rudi for several building projects. In one case, he pretty much re-built our 19th century Key West house from the ground up. His hand-made cabinetry is to die for. For another job, he did a total renovation of a modern Winston Salem house—clean lines, dramatic use of wood. Rudi is an artist, nothing less. His work is amazing—a true Swedish craftsman. He is conscientious to a fault. Requires no supervision. My partner and I have renovated over a dozen properties, so we speak from experience. You just can't find anyone better.

I was so happy when I finally met Rudi and began to speak about some custom work. It was enjoyable witnessing his impeccable craftsmanship that give new life to my house. My only regret is not pulling Rudi into my renovation sooner. His work is masterful. His work ethic is refreshing. What more can I say!!!!

Rudi's attention to detail, his artistic,detailed work, and the fact that he is dependable,honest and professional is the reason he is the only man I would consider for the job when I need work done on my home. He is in a word the BEST.

After living in Key West for over 38 years I've finally found someone that provides accurate quote appraisals, arrives at work constantly on time, delivers above quality work, is dependable, honest and proud of his work. His final products have always been above and beyond what I had hoped. My only fear is that others will find him and he'll never had time to do work for me again!

Rudi Repenning has done a number of beautiful projects for us. Not only is he a fine "old world craftsman", he also has the aesthetic eye of an artist. Each time that we have presented Rudi

with an idea he has improved upon it with his good sense of design and creativity.
